

General description: The department of Hygiene and Epidemiology at the University of Ioannina Medical School is expanding and this is an excellent opportunity for a researcher with an MSc or PhD in Epidemiology or Biostatistics (or a related quantitative field) to join our research team. The post holders will have the opportunity to work on various projects on genetic and molecular epidemiology as well as on meta-analyses and systematic reviews, based on their expertise.

Qualifications and experience: The applicants should have an MSc or PHD degree on Epidemiology, Biostatistics, Bioinformatics or a related quantitative discipline or they may hold a medical degree and have research experience in epidemiological studies. Very good oral and written English language skills are desirable.

The post: This full-time post is based at the University of Ioannina and will be fixed term from the date of the appointment for 12 months with a possibility of extension.

To apply please send a cover letter and a CV at Dr Evangelou: [vangelis@cc.uoi.gr](mailto:vangelis@cc.uoi.gr) or Dr Tzoulaki [itzoulak@cc.uoi.gr](mailto:itzoulak@cc.uoi.gr).

Salary range: 16000-21000 €/year

Closing date: October 31st, 2017 (we may consider applicants after the closing date, so please do not hesitate to contact us if you feel that you fit great with our research interests)»
