

11th EMR-IBS conference

Please join us for the 11th International Conference of the International Biometric Society's Eastern Mediterranean Region -- and the first to be held online.

A major theme will be work on the Covid-19 pandemic, spanning countries in our region (Bulgaria, Cyprus, Greece, Israel, Turkey, United Arab Emirates) and beyond (Belgium, India, Italy, Spain, United Kingdom, United States).

There will also be talks on a variety of other topics, including machine learning in healthcare, brain imaging, statistical genetics, precision medicine, species dynamics, survival analysis, causal inference and more.

For more information, please check out our lineup of speakers and the detailed schedule.

All sessions will be held in the afternoon and early evening local time, to allow participation by attendees in a wide range of time zones in 3 consecutive Tuesdays, 13th, 20th and 27th of April 2021

Registration is free!
